Coastal SKIFF

WHAT MAKE COASTAL SKIFFS SPECIAL?

One of the things that makes the Coastal Skiff 212 special is its flat bottom hull design, which allows it to navigate in shallow waters with ease. This makes it ideal for fishing in areas where other boats cannot reach, such as creeks, marshes, and flats. The flat bottom hull also provides a smooth and stable ride, as it reduces the impact of waves and choppy water. Another feature that makes the coastal skiff 212 special is its versatility. It can be customized to suit different needs and preferences, such as adding a rear deck with live well and storage box for more fishing space, or a swim platform for more fun and relaxation. The coastal skiff 212 can also be used for various activities, such as cruising, island hopping, or sightseeing. It has enough room and power to accommodate up to 12 people and their gear, making it a great boat for family and friends. The coastal skiff 212 is a special boat that offers a lot of value and performance for its price. Coastal Skiff is a family-owned boat builder with each boat built by hand one at a time from their shop in Fair Bluff, North Carolina. Owner John Jarvis rigs and finishes each boat personally before it leaves the assembly line.
